

**Special Topics in Jungian Psychology  
Spring 2024**

**Six classes offered by the C. G. Jung Institute of Colorado**

Jungian psychology connects us to the rich and mysterious inner world that our culture so often discounts. This Introductory series of classes will explore that world from the perspective of Jung's concepts of ego, shadow, complex, anima/animus, the Self and dreamwork. Analysts of the Jung Institute of Colorado will offer lectures and lead discussions in conversation with participants. This is an excellent opportunity to work with the members of the Jung Institute of Colorado and is open to both beginners and those more experienced with Jungian thought.

Meetings will be on Zoom, Wednesday evenings.

<u>Dates</u>	<u>Topics</u>	<u>Instructors</u>
March 6	Introduction to Jungian psychology	John Todd
